CF0007UNXX11

UNICAN è un prodotto innovativo che Paser propone al mondo del CAR HIFI ACCESSORIES. L'unità permette di collegare con semplici operazioni qualsiasi autoradio o radio/navigatore (vedi compatibilità radio sopra), a qualsiasi vettura a protocollo CANBUS (vedi lista compatibilità auto).

UNICAN contiene i protocolli CANBUS auto in memoria.

La selezione del protocollo avviene automaticamente alla connessione dell'unità sulla rete CANBUS.

UNICAN si AUTOPROGRAMMA!

UNICAN fornisce oltre ai comandi al volante per controllare le autoradio, anche le uscite servizi quali positivo sottochiave, positivo luci, odometro, retromarcia, freno a mano.

Per ordinare il prodotto è sufficiente inserire al posto delle XX il codice radio desiderato (vedi tabella sopra).

Di base il codice CF0007UNXX11 prevede un cablaggio universale a fili liberi, se si necessita di cablaggi PLUG&PLAY bisogna citare il codice CF0007UNXX21 (dove il 21 significa senza cablaggio universale ma con l'adattatore per la radio) seguito dai codici dei cablaggi PLUG&PLAY che intendete ordinare (vedi lista da pag. 25).

UNICAN is an innovative product that Paser propose to the CAR HIFI ACCESSORIES market. The unit allow to connect with simple operations every autoradio or radio/navigation systems (see radios compatibilities list above), to every car with CANBUS protocol (see cars compatibilities).

UNICAN have all the CANBUS protocols built in its memory.

To select the right protocol, it is just needed to connect the unit to the CANBUS car net.

UNICAN is in SELF-PROGRAMMING!

UNICAN supplies not only the steering wheel comands to control the autoradio but also services output such as ignition positive, light positive, speedpulse, backgear, handbrake.

To order the product insert instead of XX the code of the radio desired (see table above).

On default CF0007UNXX11 code indicate that the unit is supplied with an universal harness, if it is needed a PLUG&PLAY harness the code is CF0007UNXX21 (21 means without universal harness but with adapter radio only) followed by the PLUG&PLAY harnesses codes you need to order (see list page 25).
